ABOUT:

This thrilling and mysterious work is a perfect opportunity to teach sounds such as sul ponticello and harmonics in an exciting and accessible context. Feel the gravitational pull of a black hole with its driving pulse and textures!

FROM THE COMPOSER:

"Sagittarius A*" follows brave explorers as they journey through the Milky Way to study the black hole at the center of our galaxy. During their mission, they are accidentally pulled into a decaying orbit. As they battle the gravitational pull of the entity, they are slowly brought closer and closer to the event horizon, where nothing escapes.

It is up to the ensemble and the listener to help them. Will they make it?

DURATION: 4'40"
